SKILLS

Frontend

- React.js
- Next.js
- JavaScript (ES6+)
- HTML5, CSS3
- Tailwind CSS

Backend

- Node.js
- Express.js
- Django
- REST API Development
- JWT Authentication

Databases

- MongoDB (Mongoose)
- PostgreSQL
- MySQL

Tools & Platforms

- Git & GitHub
- Postman
- Vercel
- Jupyter / Google Colab

Languages

- JavaScript
- Python

EDUCATION

MCA

Amravati University
2023–2025 | CGPA: 7.14

BCA

Savitribai Phule Pune University
2019–2022 | CGPA: 8.36

CERTIFICATIONS

IBM — Python for Data Science
2024

Udemy — AI, Data Science & ml
2025

PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer with hands-on experience building and deploying MERN applications, RESTful APIs, authentication systems, and database-driven platforms. Skilled in designing scalable backend architectures, optimizing API performance, and developing production-ready applications using React.js, Node.js, Express.js, MongoDB, PostgreSQL, and MySQL. Experienced in cloud deployment, payment integration, query optimization, and responsive frontend development.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern Nov 2025 – Mar 2026

GeniaTEQ Pvt Ltd

- Developed internal MERN-based web applications with responsive UI across desktop, tablet, and mobile.
- Built and maintained RESTful APIs using Node.js and Express.js for scalable backend communication.
- Improved API response performance by optimizing database queries and reducing server-side processing.
- Collaborated in Agile sprint cycles for weekly releases; integrated auth workflows and backend validation logic.
- Debugging, API testing, and issue resolution using Postman and Git-based workflows.

PROJECTS

Bizdy.in — Business Platform

React.js · Node.js · Express.js · MySQL

- Built and deployed a full-stack business platform with end-to-end ownership of frontend, backend, DB, and deployment.
- Modular REST APIs with structured routing; secure JWT authentication with password encryption and protected routes.
- Optimized MySQL schema and queries; configured cloud deployment, domain mapping, SSL, and production hosting.

Royal Holiday Tours — Travel Booking Platform

React.js · Node.js · MySQL · Tailwind CSS

- MERN-based travel platform with dynamic package search, filtering, and responsive Tailwind CSS interfaces.
- Backend booking workflows with server-side validation, JWT authentication, and protected session management.

Book Shop E-Commerce Backend

Django · SQL · Stripe

- Django backend: CRUD, authentication, order management, and Stripe payment integration with SQLite.
- Paginated product search via Django ORM; RESTful endpoints with structured, scalable database relationships.

MU College & Paraamba Website

MERN Stack

- Revamped legacy backend and resolved 50+ session handling and data management issues.

- Optimized DB queries for faster retrieval; improved frontend responsiveness and debugged production features.

ADDITIONAL HIGHLIGHTS

- End-to-end experience building and deploying full-stack web applications in production.
- Deep understanding of REST APIs, JWT authentication flows, and security best practices.
- Hands-on expertise in database schema design, query optimization, and backend performance tuning.
- Familiar with Agile development, sprint-based collaboration, and Git version control workflows.
